ad the ADXL345  
clone https

example code and test it is working:

adxl345-python  
python example.py

you should see the G readings from the ADXL345.

```
pi@raspberrypi:~/adxl345-python$ sudo python example.py
ADXL345 on address 0x53:
x = 0.056G
y = 0.588G
z = 0.872G
pi@raspberrypi:~/adxl345-python$
